

Deployment  
Zone

The diagram features a light blue background with several light blue geometric shapes (polygons and rectangles) representing obstacles. A solid red line runs diagonally from the top-left towards the center, defining the boundary of a red-shaded 'Deployment Zone' in the top-left corner. A solid blue line runs diagonally from the bottom-right towards the center, defining the boundary of a blue-shaded 'Deployment Zone' in the bottom-right corner. A dashed grey line runs diagonally from the bottom-left to the top-right, passing through a yellow circle with a black outline. This yellow circle is labeled 'Network Terminal' and is positioned at the intersection of the dashed line and the red line, just inside the red-shaded zone.
